Marta Jakovleva

UX/UI Designer

From marketing insight to *working websites.*

PROFILE

I spent eight years in marketing learning what makes people click, decide and buy. Since 2024 I turn that insight into design — websites that *tell a story*, guide the visitor and work for the business behind them. I take a project from structure to surface and ship it as a working website, built with AI-assisted development that I direct.

EXPERIENCE

UX/UI Designer

2024 — PRESENT

Independent practice · Riga, Latvia

- Design websites end to end: research, information architecture, user flows, wireframes, interface, interaction and art direction.
- Planned, designed and launched Ozona Vannas — a live, trilingual website for a wellness studio in Riga.
- Created a redesign concept for Blue Lagoon Village, a real boutique stay in Turkey; the owner approved the direction.
- Built seven self-initiated concepts as working websites — real estate, food, restaurant, drinks, beauty, health and fashion.
- Designed this portfolio as an interactive story rather than a grid of cards — marta-jakovleva.pages.dev.

Marketing Specialist

2016 — 2024

Artesium Baltic Distribution Ltd · Riga, Latvia

Eight years of learning how customers think, compare and decide — the foundation of how I design today.

Market & competitor research · Customer journey analysis · Marketing strategy · Digital campaigns · Website messaging · Content strategy · Partner collaboration

Spanish	Intermediate · B1

Selected work

Every project here is a working website — click any of them to open it, or walk through all nine, with the story behind each, in the portfolio.

Ozona Vannas 01

WELLNESS STUDIO · RIGA

A responsive, trilingual website for a small wellness business — planned, designed and launched from information architecture to final interface.

ozonavannas.lv ↗

Blue Lagoon Village 02

HOSPITALITY · TURKEY

A boutique stay told as a descent from the headland to the sea — destination story, room discovery and a booking request flow.

blue-lagoon-village.vercel.app ↗

STRATA Residences 03

RESIDENTIAL REAL ESTATE

A premium residence explored floor by floor — location, architecture, apartment discovery and a clear enquiry journey.

strata-residences-mu.vercel.app ↗

Odd Orchard 04

FOOD & BRAND

A playful juice brand where every flavour has a keeper — product storytelling, bold hierarchy and editorial browsing.

odd-orchard.vercel.app ↗

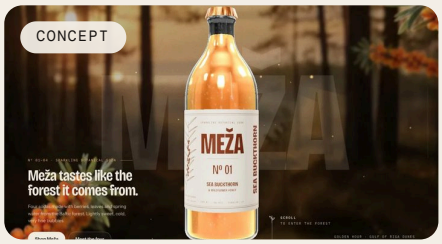

Vesper 05

RESTAURANT · RIGA OLD TOWN

An evening restaurant entered like a guest — atmosphere, menu discovery, storytelling and a table-reservation flow.

vesper-riga.vercel.app ↗

Meža 06

DRINKS · E-COMMERCE

A Baltic botanical soda you read bottle by bottle — a real-time 3D bottle, ingredient stories, the range and a demo shop.

meza-website-psi.vercel.app ↗

RASA — First Light 07

BEAUTY · E-COMMERCE

A botanical face oil followed from a northern bog to the bottle — narrative product journey, ritual guidance and demo checkout.

rasa-botanical-experience.vercel.app ↗

Strand 08

HEALTH · LABORATORY

Service-led UX for a genetics lab — testing, science and process explained with clarity, to build trust before the first test.

strand-genetics.vercel.app ↗

AERIS° Afterlight 09

FASHION · E-COMMERCE

A technical clothing drop presented as a digital showroom — product presentation, brand identity and a streamlined shop.

aeris-afterlight.vercel.app ↗

AI supports my workflow. *UX/UI design is my profession.*

Concept, UX/UI and art direction are mine. The websites are built with AI-assisted development (Claude) under my direction; imagery is generated with visual AI tools and art-directed by me.

Interested in working together? *Let's talk.*
